Conclusion

The Centre for OSCE Research (CORE) is the world's only research institution that is specifically dedicated to scientific and advisory work on the OSCE. CORE was one of the institutions that founded the OSCE Network of Think Tanks and Academic Institutions in 2013. Prior to this, CORE was a member of the Initiative for the Development of a Euro-Atlantic and Eurasian Security Community (IDEAS) that attracted much attention within the OSCE community in 2012
